

VI. FOOD FUNDS MANAGEMENT

(Please indicate) State Agency: West Virginia

for FY: 2022

Food funds management involves monitoring cost containment measures and procedures related to infant formula and other authorized food items, the monitoring and management of State agency funding sources, and the accurate reporting of participation figures.

During a disaster or public health emergency, the State agency may request to implement existing WIC regulatory and programmatic flexibilities to support the continuation of Program benefits and services. State agencies should consider the overarching authority, i.e., Stafford Act or provision(s) authorized by Congress, before developing a policy and procedure. The State agency must provide a detailed description of how it plans to operationalize the flexibility through their procedure manual where applicable. Please note the State Plan Guidance is not intended to [include/capture] a description of waivers authorized by Congress with separate [reporting requirements and timeframes/terms and conditions], i.e. the Families First Coronavirus Response Act (PL 116-127).

- A. **Cost Containment Measures** - **246.4(a)(14)(xi)**, **246.4(a)(14)(xvii)**, **246.16a(a)**: describe the policies and procedures used to implement cost containment measures as they relate to infant formula contracts, their approval and the processing of infant formula and/ or other rebates, and food package cost containment practices.
- B. **Funds Monitoring/798 Reporting** - **246.4(a)(2)**; **(a)(12)**; **and** **(a)(14)**: describe the State agency's funding sources, how food obligations are calculated to allow for inflation, rebate cash management, and monthly closeout monitoring activities.
- C. **Participation Reporting** - **246.4(a)(11)**: describe the methods used to accurately document and monitor participation at the State and local level, and methods for monitoring changes in participation by priority.

VI. FOOD FUNDS MANAGEMENT

A. Cost Containment Measures

1. The State agency seeks FNS approval related to infant formula cost containment measures (check one):

- For a waiver of the requirement for a single-supplier competitive system. State agency must complete a cost comparison projecting food cost savings in the single-supplier competitive system based on the lowest monthly net price or highest monthly rebate [as required in Section [246.16a\(d\)\(2\)\(i\)](#) through [\(d\)\(2\)\(iii\)](#) and savings under an alternative cost containment system, Section [246.16a\(d\)\(2\)\(B\)](#)]
- To issue an infant formula bid solicitation that evaluates bids by highest rebate. A State agency must demonstrate to FNS' satisfaction that the weighted average retail prices for different brands of infant formula in the State vary by 5% or less [as required in Section [246.16a\(c\)\(5\)\(iii\)](#)].
- Not applicable

Please attach in the Appendix supporting documentation for requests for FNS approval.
